

## Burghart Equipment Now Available Through Cerulean

Cerulean are delighted to announce that they are working with Burghart Messtechnik to supply a range of established test equipment to the Global Tobacco industry.

The devices involved are the DD60A Densimeter, DD37A automatic hardness tester, E44 loose ends tester and LM-02 length measurement device. These instruments, which have all been manufactured by Burghart Messtechnik for many years and are already used extensively in the industry, are now available through Cerulean global sales offices and will carry the brand of both companies.

Cerulean will provide full service and spare parts support. For further information please contact your local Cerulean sales manager.

Find out more by contacting your local Cerulean Sales or Service manager [here](#).
